DETAILED ACTION

This is in response to amendment filed on 6/28/07 in which claims 1-20 and 24-26 are pending. The applicant's amendments have been fully considered therefore this case is in condition for allowance. In addition the pending claims have been renumbered as 1-8, 10-16, 18-22, 9, 17 and 23, respectively.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious the following recited features: Determine a second difference associated with a second interval, the second difference corresponding to a difference between phase information associated with a third pilot tone received by the device during the second interval and the first phase information, use the second difference to determine second offset information, and modify phase information associated with tones received during the second interval based on the second offset information as recited in claim 1. Storing phase information associated with a first pilot tone received from a second network device; receiving a plurality of symbols from the second network device; identifying a second pilot tone in at least one of the plurality of symbols; determining second phase information associated with the second pilot tone; obtaining a difference between the first phase information and the second phase information; dividing the difference by a value associated with the first pilot tone to obtain a first value as recited in claims 9 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
